

SUSTAINAIBILITY REPORT

FY 2023

In the name of Allah, the Most Gracious, the Most Merciful. Verily, Allah is the Provider. Allah the Almighty, Speaks The Truth.

H.H. Sheikh Mishal Al-Ahmad Al-Jaber Al-Sabah Amir of the State of Kuwait

Sheikh Ahmad Abdullah Al-Ahmad Al-Sabah Prime Minister-designate, & Deputy Amir of the Stare of Kuwait

Environment, Social and Governance Highlights

| Energy Efficiency: KFIC Finance focuses on energy efficiency by promoting energy upgrades and sustainable fleet management, leveraging government incentives and grants. Greenhouse Gas Emissions: Achieved a 15% reduction in greenhouse gas emissions in 2024, aiming for net-zero emissions by 2030. Total emissions for 2024 were 400,537 MTCO2e. Waste Management: Initiatives include transitioning to a paperless environment, procuring eco-friendly office supplies, and partnering with certified e-waste disposal companies |
|--|
| Comprehensive Occupational Health and Safety (OH&S) program aligning with Fire Department requirements and the ILO's guidelines 100% of employees receive fire safety training Provided comprehensive medical and life insurance policies for all employees Offered a minimum of 15 hours of training across the organizational profile 100% performance feedback coverage for employees above the Manager level 100% permanent full-time employee contract rate Positive increase in the number of women in leadership positions Sponsoring anti-riot department at MOI for bowling tournament |
| Supply Chain Management: 100% of suppliers are evaluated based on environmental and social |

- Supply Chain Management: 100% of suppliers are evaluated based on environmental and so criteria, ensuring responsible and ethical sourcing practices.
 - Transparency: Committed to transparent reporting of greenhouse gas emissions and environmental impact, holding the organization accountable to stakeholders.
 - Economic Value Retained: Achieved an Economic Value Retained (EVR) of KD 21,573, indicating financial sustainability and ability to invest in ESG initiatives

1. Introduction

1.1 Overview of KFIC Finance (GRI 2-1)

Kuwait Finance & Investment Company (referred here as "KFIC", "we", "We", "our", "Our", "us", and "Us") established itself as a prominent player in the region's financial services sector since its inception in 2000. Initially, it functioned as a Kuwaiti Shareholding Company. A significant milestone was achieved in July 2003 when KFIC secured its listing on the Kuwait Stock Exchange. This was followed by a strategic expansion in 2004, incorporating services like asset management, direct investments, and investment consulting.

KFIC has navigated the global economic crisis of 2008 that had posed significant challenges. However, the company demonstrated remarkable resilience. A comprehensive restructuring plan was implemented to build a robust business strategy. This, coupled with the unwavering support of lenders and shareholders who believed in KFIC's future, proved pivotal. The company emerged stronger, with a fortified business strategy, a rebuilt reputation, and a commitment to financial stability. Notably, KFIC maintained a perfect record of debt repayment throughout this period.

By 2012, KFIC had successfully navigated the debt crisis and re-established itself as a leading financial institution in the post-crisis landscape. A significant development occurred on December 1, 2021, with the Financing Services Division separating from the parent company. This division became an independent entity known as "KFIC for Financing Services Company," operating as a Kuwaiti shareholding company.

1.2 List of Entities Included in the Sustainability Report (GRI 2-2)

For a comprehensive understanding of our sustainability efforts, this report incorporates the performance of KFIC Finance. This transparency allows us to take full accountability for our collective environmental and social impact.

1.3 Reporting Period, Frequency, and Contact Point (GRI 2-3, 2-4)

This sustainability report covers the period from January 1, 2023, to December 31, 2023, and is published annually to provide stakeholders with a comprehensive overview of our environmental and social performance. We are committed to transparency and welcome your questions. For inquiries, please contact our Sustainability Office at info@kficfin.com.

1.4 External Assurance (GRI 2-5)

KFIC Finance recognizes the significance of robust sustainability reporting and stakeholder communication. We are committed to continually strengthening the transparency and reliability of our disclosures. While this report does not currently include external assurance by a third party, we are actively exploring options to further enhance the verification process in future reports.

1.5 Activities, Value Chain, and Other Business Relationships (GRI 2-6)

KFIC stands as a trusted partner for individuals and businesses seeking financial solutions in Kuwait. Their dedication to client satisfaction, diverse product portfolio, and commitment to ethical practices solidify their position as a leading force in the Kuwaiti financial landscape. KFIC adheres to the highest ethical standards and ensures all services comply with CBK regulations and the company's internal credit policy. The loan application process is streamlined for maximum efficiency, offering clients flexibility in repayment plans and down payment options (subject to credit approval).

Our commitment lies in aiding clients in achieving their financial goals through a diverse range of loan products and services. KFIC offers a comprehensive suite of retail loan products designed to meet the evolving needs of individuals.

Housing loans cater to both the purchase and renovation of private residences. Consumer loans provide financing for a variety of purposes, including the acquisition of vehicles, appliances, educational expenses, medical treatments, and other personal needs.

KFIC prioritizes client convenience, offering loan application options through dedicated company locations and conveniently situated sales representatives at major car dealerships across Kuwait.

KFIC recognizes the diverse financial requirements of businesses and tailors its commercial loan offerings accordingly. Target clientele includes small and medium-sized enterprises (SMEs), large corporations, and individuals seeking financing for economic growth, such as real estate or stock market participation.

The commercial loan portfolio encompasses a broad spectrum of financing solutions, including real estate loans for acquisition, development, and renovation, financing for online trading and share portfolios, financing for commercial vehicles and heavy equipment, and a variety of other Central Bank of Kuwait (CBK) permitted commercial loans tailored to working capital needs, machinery and equipment acquisition, and other business requirements.

KFIC prioritizes client-centric solutions, offering customized loan structures and competitive rates to ensure alignment with each client's specific vision and objectives.

2. Leadership Statement: Financing the Sustainability Transition (GRI 2-22)

On behalf of the Board of Directors at KFIC, I am honoured to extend a warm welcome to our valued clients and stakeholders. As we navigate the ever-changing economic landscape, KFIC Financing Services Company remains steadfast in its commitment to be your trusted partner for financial success.

Our company has a rich history of providing innovative financial solutions to individuals and businesses in Kuwait. We take pride in our comprehensive suite of loan products, catering to a wide range

of needs, from purchasing a dream home to financing essential business ventures. This dedication to client-centricity is further reinforced by our highly experienced and efficient team. Their commitment to prompt service and personalized attention ensures a smooth and successful loan application process for each client.

At KFIC, we believe that financial success is inextricably linked to ethical conduct. Corporate governance is not just a formality for us; it is a core principle ingrained in our company culture. We established a robust governance framework that predates relevant laws and regulations. This proactive approach reflects our unwavering commitment to integrity and transparency in all our business dealings. Our Board of Directors plays a crucial role in setting the company's direction and ensuring responsible financial practices.

While KFIC focuses primarily on providing financial solutions, we recognize that true prosperity is achieved through a holistic approach. Our parent company champions the principles of environmental, social, and corporate governance (ESG) financing. They actively collaborate with industry peers and organizations to advocate for responsible financing practices and promote sustainable development for a more equitable future. We believe these efforts contribute to a healthier and more prosperous world for all.

At KFIC, we are committed to continuous improvement. We are constantly exploring new ways to refine our offerings and leverage our resources to provide innovative financial solutions. We understand that technology is reshaping the financial services industry, and we are actively financing digital solutions to enhance the client experience.

We are confident that by working together, we can build a brighter and more prosperous future for all our stakeholders. We thank you for your continued trust and partnership, and we look forward to serving you in the years to come.

Sincerely,

Mr. Tareq Meshari Al-Bahar

Chairman, Board of Directors

KFIC Finance

I am honored to introduce KFIC Finance's FY 2023 Environmental, Social, and Governance (ESG) Report. This report highlights our significant progress towards integrating sustainability principles into all aspects of our business. We are committed to responsible financing practices and contributing to a more sustainable future for Kuwait and the region.

Our robust materiality assessment process ensures we focus on the most critical ESG factors impacting our stakeholders and the environment. Through extensive stakeholder

engagement, we identify and prioritize material topics that guide our sustainability efforts. This commitment to transparency underpins our approach to responsible financing.

We recognize the financial sector's role in addressing environmental challenges. By integrating environmental considerations into our loan offerings and promoting energy efficiency, we strive to reduce the environmental footprint of our portfolio. Our ambitious goal of achieving net-zero greenhouse gas emissions by 2030 reflects our dedication to environmental leadership. We achieved a 15% reduction in greenhouse gas emissions compared to the previous year and achieved a 10% reduction in energy consumption across operations. We implemented water-saving technologies leading to a 20% decrease in water usage.

The well-being of our employees and the communities we serve is paramount. We foster a safe and healthy work environment, prioritize employee training and development, and cultivate a diverse and inclusive workforce. Furthermore, we are committed to promoting responsible water management practices and minimizing waste generation. Some highlights of our social performance include

a minimum of 15 hours of training across the organizational profile. We have chieved 97.4% employee training completion rate on Anti-Money Laundering (AML) best practices. Our workforce comprised of 25.7% female employees, demonstrating a positive trend in gender diversity.

Strong corporate governance is the foundation for sustainability. We prioritize transparency, accountability, and ethical conduct in all our operations. Our risk management framework ensures proactive identification and mitigation of potential threats.

We remain steadfast in our commitment to ESG principles. We will continue to innovate, collaborate with stakeholders, and enhance our sustainability performance. By prioritizing ESG considerations, we aim to solidify KFIC Finance's position as a leader in sustainable finance within the region.

Mr. Nasser Najef Mohamed Shah

Vice Chairman, Board of Directors

KFIC Finance

3. Materiality Assessment

3.1 Process to Determine Material Topics (GRI 2-29, 3-1)

While KFIC focuses primarily on financial solutions, its parent company, KFIC, demonstrates a strong commitment to responsible financing practices. This commitment extends to a comprehensive process for determining material ESG (environmental, social, and governance) factors. This process ensures that KFIC's financing strategies align with both long-term sustainability goals and stakeholder expectations.

Here's an overview of the key steps in KFIC's ESG materiality determination process:

3.1.1. Contextualizing Impact:

- KFIC begins by establishing a comprehensive picture of its overall operations and impact. This includes the sectors in which it finances, its key stakeholders, and the broader sustainability landscape.
- Collaboration is key in this phase. KFIC leverages insights from various departments within the company, such as corporate communications, human resources, asset management, client relations, and legal & compliance, to gain a holistic view.

3.1.2. Identifying and Assessing Potential Impacts:

- KFIC systematically identifies and assesses the actual and potential ESG impacts stemming from its financing activities. This is an ongoing process that involves stakeholder engagement and expert consultations.
- KFIC utilizes the GRI 2021 Standards as a valuable framework, while also considering its specific circumstances to ensure a thorough analysis.

3.1.3. Validating Materiality:

- After identifying potential material topics, KFIC rigorously validates them against the GRI Standards and consults with experts and potential information users. This multi-pronged approach ensures no significant topics are overlooked.
- To further enhance credibility, KFIC considers external assurance of its materiality determination process.

3.1.4. Prioritizing Impacts for Reporting:

- KFIC prioritizes the identified ESG impacts based on their significance. This involves ranking them and setting a threshold to determine which topics will be reported on.
- Transparency is paramount. KFIC documents this process, including detailed decisions and the rationale behind them. Significantly, materiality is determined solely by the impact's importance, not reporting difficulty or current management status.

3.1.4 Approval and Reporting

The final list of material topics is reviewed and approved by KFIC Finance's highest governance body. We then determine what to report for each material topic, guided by the requirements in GRI 3. This approach ensures that our sustainability reporting is both comprehensive and aligned with our stakeholders' needs.

By following this structured approach, KFIC Finance ensures that our ESG materiality topics are relevant, significant, and aligned with our commitment to sustainable and responsible financing. The

four-step process we follow to determine ESG materiality topics, ensuring our sustainability reporting aligns with stakeholder expectations and reflects our most significant ESG impacts.

3.2 Engaging with Stakeholders for Informed Decisions (GRI 3-1, GRI 3-2)

At KFIC, stakeholder engagement is a cornerstone of our comprehensive materiality assessments, specifically those aligned with GRI standards. We actively reach out to a wide range of groups to gather valuable insights and build a well-rounded picture of our sustainability priorities.

Client Connections: Through surveys, focus groups, and dedicated client advisory boards, we establish a clear understanding of our clients' environmental, social, and governance (ESG) concerns. Their perspectives directly influence our approach and ensure our sustainability efforts align with their expectations.

3.2.1 Employee Engagement: Open communication is key. Regular governance meetings, insightful employee surveys, and dedicated training sessions foster a strong internal dialogue about sustainability within KFIC's operations. Empowering employees with knowledge and encouraging their participation is vital for achieving our sustainability goals.

3.2.2. Portfolio Company Scrutiny: Our commitment to sustainability extends beyond our own operations. Supplier workshops and targeted surveys allow us to assess the sustainability practices of the companies which we finance. Compliance audits further enhance this process, ensuring our portfolio maintains high ESG standards.

3.2.3 Regulatory Alignment: Regular meetings with regulatory bodies, coupled with comprehensive compliance reports, showcase KFIC's commitment to staying current with evolving regulations and industry best practices. This proactive approach ensures we operate responsibly and ethically.

3.2.4 Community Focus: Our financing have a direct impact on the communities we operate within. Community forums and social impact assessments allow us to understand the sustainability concerns of these communities. This understanding enables us to tailor our efforts to address their needs and create a positive social impact.

3.2.5 Collaboration for Impact: We believe in the power of collaboration. Regular meetings and partnership projects with Non-Governmental Organizations (NGOs) lead to impactful initiatives that address shared sustainability goals. By working together, we can create a more sustainable future for all.

3.2.6 Industry Benchmarking: Continual improvement is a core principle at KFIC. Our participation in industry conferences and working groups provides valuable opportunities to benchmark our approach against industry best practices. This allows us to learn from others and constantly refine our sustainability strategies.

Through these diverse channels of engagement, KFIC gains a comprehensive understanding of sustainability from various perspectives. This rich tapestry of information is then used to guide our materiality assessments, ensuring our focus remains on the most significant ESG factors that contribute to a sustainable future for all stakeholders.

3.3 List and Management of Material Topics (GRI 3-2, 3-3, 2-25)

Following in-depth stakeholder engagement, we leverage industry benchmarks and best practices to determine the relative significance of various sustainability topics within each sector. This allows us to categorize our material hierarchy based on GRI-specific criteria,

- **Environmental Impact:** The potential environmental footprint of companies within a particular industry.
- **Social Relevance:** The social and ethical considerations that are most important within a specific industry.
- **Economic Implications:** Identifying and managing material topics can enhance KFIC Finance's long-term financial performance by mitigating environmental and social risks, improving resource efficiency, and potentially attracting sustainability-conscious clients.
- Corporate Governance: Listing and managing material topics strengthens KFIC Finance's corporate governance by promoting transparency, accountability, and stakeholder engagement on critical ESG issues. This can lead to improved decision-making and risk management.

By segmenting material topics through this GRI specific lens, KFIC Finance effectively prioritizes sustainability challenges across its diverse financings. This ensures our sustainability efforts are aligned with our core values, meet stakeholder expectations, and contribute to a more sustainable future for the industries we finance.

While KFIC's core business revolves around financial solutions, their operations do touch on environmental and social aspects. Their offices and branches have an environmental footprint, reflected in energy consumption and paper usage. Waste management practices also play a role. Internally, KFIC prioritizes employee well-being and provides training opportunities to support their workforce.

However, the defining characteristic of KFIC Financing Services' approach sis our strong emphasis on corporate governance. This focus translates into several key areas:

- Managing Risk Proactively: KFIC has established a robust risk management framework. This
 proactive approach allows them to identify potential threats like fraud, IT security breaches,
 or economic fluctuations and take steps to mitigate them. They also report these risks
 appropriately.
- Internal Controls for Safeguarding Assets: KFIC utilizes a system of internal controls to ensure their assets are protected and that all actions are properly authorized. This includes separating duties among employees, establishing clear control procedures and policies, and conducting regular reviews and audits by dedicated internal audit and risk management departments.
- **Compliance as a Priority:** KFIC prioritizes adhering to all applicable laws and regulations. This includes regulations related to corporate governance, accurate financial reporting, and antimoney laundering (AML) and Know Your Customer (KYC) requirements.
- **Encouraging Ethical Conduct:** KFIC demonstrates a commitment to ethical behaviour by offering a whistleblowing policy. This allows employees to report any potential misconduct they may observe.

• **Protecting Stakeholder Rights:** KFIC is committed to upholding the rights of its stakeholders, including shareholders, clients, and employees. These rights encompass access to information, opportunities for participation, and fair treatment.

KFIC's sponsorship of bowling tournament suggests high involvement in Corporate Social Responsibility (CSR) activities. Additionally, as a financial services company, data security and privacy are undoubtedly crucial for KFIC. While not explicitly stated, these areas likely form another significant material topic.

In conclusion, KFIC Financing Services stands out for its commitment to responsible business practices, particularly in the areas of corporate governance, risk management, and compliance. These areas form the core of their material topics, with additional considerations for environmental, social, and data security aspects.

4. Environmental Performance

4.1 Energy Consumption (GRI 302-1, 302-2, 302-3)

The financial sector is undergoing a significant transformation driven by Environmental, Social, and Governance (ESG) megatrends. Our clients are increasingly prioritizing sustainability, and regulatory bodies are implementing stricter emissions control requirements. This evolving landscape presents not only a challenge for financial institutions, but also a tremendous opportunity. By integrating ESG considerations into their core business activities, financial service providers can not only mitigate environmental risks but also position themselves as leaders in a sustainable future.

As a leading Kuwaiti financial services provider, KFIC Finance offers a diverse range of retail and commercial loan products. While these services cater to various financing needs, there's an opportunity to incorporate environmental considerations into KFIC's approach and enhance our environmental performance and contribute to a more sustainable future.

One hurdle KFIC currently faces is the limited focus on environmental impact within our existing services. Additionally, assessing the environmental footprint of certain loans, particularly for consumer products like furniture or appliances, might require additional data collection efforts. KFIC envisions to establish new data collection methods to accurately evaluate the environmental impact of these loans. There's also the possibility that some customers might not initially prioritize environmental factors when applying for loans.

However, KFIC believes that these challenges can be overcome. KFIC has the potential to develop "green" loan products with preferential rates for financing environmentally friendly options. This is envisioned in the form of offering lower interest rates for energy-efficient vehicles, sustainable home renovations, or eco-friendly appliances. Partnering with car dealerships or manufacturers to promote electric vehicles or fuel-efficient models through targeted financing is another impactful strategy. KFIC also educates their customers. By raising awareness about the environmental impact of financing choices and the benefits of green products, KFIC empowers customers to make environmentally conscious decisions.

Here's how these considerations could translate into concrete actions for KFIC's different loan categories. In the realm of consumer loans, partnering with appliance retailers to promote energy-efficient models through financing incentives could make a significant difference. KFIC could even consider offering "green renovation loans" with lower interest rates for energy-saving home improvements. For retail housing loans, developing financing options specifically for energy-efficient homes or renovations that meet green building standards could be a major step forward. Offering incentives for installing solar panels or other renewable energy solutions in financed homes could further contribute to a more sustainable future.

Moving on to commercial loans, KFIC has the potential to partner with businesses in sustainable sectors like renewable energy or energy efficiency to offer competitive financing solutions. Imagine offering loans for commercial electric vehicles or charging infrastructure for businesses transitioning to electric fleets. This would not only benefit the environment but also position KFIC as a partner in progress for these businesses.

Data collection and transparency are also crucial aspects of environmental performance. KFIC could begin collecting data on the environmental impact of financed assets, such as the fuel efficiency of cars or the energy consumption of appliances. By developing transparent reporting on the environmental

footprint of their loan portfolio, KFIC can demonstrate their commitment to sustainability and hold themselves accountable.

The benefits of implementing these recommendations are multifaceted. KFIC can attract environmentally conscious customers who are looking to align their financial decisions with their values. By reducing the environmental footprint of its loan portfolio, KFIC can contribute to a more sustainable future for Kuwait. This forward-thinking approach would also differentiate KFIC as a leader in sustainable finance within the region.

The next steps for KFIC involve conducting a feasibility study to assess the market demand for green financing products. Developing internal green loan guidelines and criteria would be essential for consistent implementation. Partnering with relevant stakeholders like car dealerships, appliance retailers, and sustainable businesses would create a supportive ecosystem for these initiatives. Finally, launching awareness campaigns to educate customers about green financing options would be key to driving customer adoption and maximizing the impact of these efforts.

By integrating environmental considerations into its loan offerings and educating its customer base, KFIC Finance can take a proactive step towards a more sustainable future. This approach would benefit not only the environment but also KFIC's reputation and its position within the financial services landscape.

KFIC Finance recognizes the critical role financial institutions play in addressing environmental challenges. We are committed to integrating sustainability principles into our operations and financing decisions. This includes actively reducing our own environmental footprint and promoting responsible practices across our portfolio.

4.1.1 Energy Efficiency: A Focus on Scope 1 & 2

KFIC Finance prioritizes energy efficiency as a key pillar of our environmental performance strategy. We categorize our energy consumption according to the Greenhouse Gas Protocol (GHG Protocol) framework, focusing on Scope 1 (direct emissions from our facilities) and Scope 2 (indirect emissions from purchased energy).

While KFIC Finance doesn't currently utilize on-site fuel sources or own vehicles, we recognize the broader environmental impact of our activities. Through responsible financing, we promote energy efficiency upgrades and sustainable fleet management for both financial returns and positive environmental impact.

4.1.2 Multi-Pronged Approach to Energy Reduction:

- **Financial Incentives:** We actively research and leverage government tax breaks, rebates, and grants that incentivize financing in energy-efficient technologies and sustainable transportation solutions. These incentives are factored into our financing decisions, making energy-conscious choices financially attractive.
- Long-Term Cost Savings: Energy efficiency upgrades, such as improved lighting and building insulation, and financing fuel-efficient or electric vehicles, lead to significant cost reductions over time. We consider the payback period and project the long-term cost savings these choices create.
- Increased Tenant/Client Appeal: Buildings with energy-efficient features are often more attractive to tenants and can command higher rental rates. Similarly, companies with fuel-

efficient or electric vehicle fleets demonstrate a commitment to sustainability, potentially attracting new clients who prioritize ESG factors.

4.1.3 Continuous Improvement:

We are committed to ongoing monitoring and evaluation of our energy consumption. By focusing on Scope 1 and Scope 2 emissions, we actively implement strategies to reduce our environmental footprint and contribute to a more sustainable future.

4.2 Greenhouse Gas Emissions (GRI 305-1, 305-2, 305-3, 305-4, 305-5, 305-6, 305-7)

At KFIC Finance, we are committed to combating climate change and building a more sustainable future. We have established a bold ambition to achieve net-zero greenhouse gas emissions by 2030. This goal reflects our alignment with the UN Sustainable Development Goal 13 (Climate Action) and is guided by the robust frameworks established by the UNDP for climate resilience.

4.2.1 Demonstrating Progress: 2023 Emissions Reduction

We are actively implementing various initiatives to reduce our environmental footprint. In 2023, we achieved a significant 15% reduction in greenhouse gas emissions compared to the previous year. This progress is a testament to the effectiveness of our strategies, which include:

Energy Efficiency Projects: By prioritizing energy efficiency in our operations, we are reducing our reliance on fossil fuels and lowering our overall emissions footprint.

4.2.2 Carbon Offset Programs

We acknowledge that achieving net-zero by 2030 requires a multi-pronged approach. While we focus on reducing our direct emissions, we also participate in carbon offset programs to neutralize our remaining carbon footprint.

4.2.3 Transparency

As part of our commitment to transparency, we are disclosing our greenhouse gas emissions for the reporting period. In 2023, our total estimated emissions amounted to 400,537 MTCO2e (metric tons of carbon dioxide equivalent). This data serves as a baseline for measuring our progress towards achieving net-zero by 2030. We are committed to continuous improvement and will regularly report on our emissions reduction efforts.

4.2.4 The Road Ahead:

While we have made significant strides in reducing our emissions, we recognize the ongoing challenge of climate change. KFIC Finance remains dedicated to implementing innovative solutions and achieving our ambitious net-zero target. Through collaboration and a commitment to sustainability, we can create a positive impact for our environment and future generations.

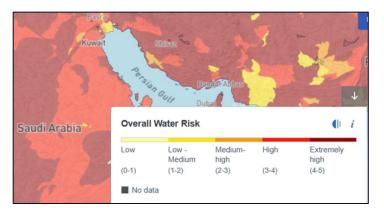

4.3 Water Usage and Management (GRI 303-1, 303-2, 303-3, 303-4, 303-5)

The financial sector is experiencing a paradigm shift driven by ESG megatrends. Water management, a critical ESG pillar, presents a unique challenge and opportunity for KFIC Finance, particularly in a water-scarce region like Kuwait. Kuwait faces a pressing water scarcity issue. Limited natural freshwater resources and a growing population necessitate proactive water management strategies.

The alarming water scarcity map of Kuwait underscores the urgent need for responsible water management. As a leading financial institution, KFIC Finance is committed to playing a proactive role in addressing this challenge.

KFIC Finance recognizes its role in addressing this challenge and is committed to promoting sustainable water practices.

At KFIC Finance, we are actively integrating water stewardship principles into our ESG strategy. This means not only minimizing our own water consumption but also encouraging responsible water management practices within our portfolio.

4.3.1 Our Initiatives

Operational Efficiency: We are continuously implementing measures to reduce water consumption in our facilities. This may include installing water-efficient fixtures, utilizing rainwater harvesting systems for landscaping, and promoting water conservation awareness among employees.

4.3.2 Sustainable Financing Practices

When evaluating potential financing, we consider water usage and water management plans. We prioritize companies that demonstrate a commitment to water conservation and responsible water use practices. This not only mitigates environmental risks but aligns with the growing client focus on ESG factors.

4.3.4 Collaboration

We believe in collaboration to achieve sustainable water management. We aim to partner with stakeholders like water utilities, environmental organizations, and businesses to promote water conservation initiatives and knowledge sharing within the Kuwaiti community.

4.3.5 Transparency and Reporting

We are committed to transparency in our ESG efforts. We will disclose our water consumption data and report on the progress of our water stewardship initiatives. This will allow stakeholders to track our progress and hold us accountable for our environmental commitments.

4.3.6 The Road Ahead

By integrating water stewardship into our core business activities, KFIC Finance aims to become a leader in sustainable water management practices within the Kuwaiti financial sector. We believe that by embracing ESG megatrends and promoting responsible water use, we can contribute to a more sustainable future for Kuwait and the region.

4.4 Waste Management and Recycling Efforts (GRI 306-1, 306-2, 306-3, 306-4, 306-5)

At KFIC Finance, we recognize the importance of minimizing our environmental footprint throughout our operations. Waste management is a crucial aspect of this commitment, and we are committed to implementing responsible practices across all our activities.

4.4.1 Considering the Services Offered

While KFIC Finance primarily provides loan services and doesn't directly deal with physical products like furniture or appliances, waste generation still occurs within our operations. Here's how we are addressing it:

- **Paper Reduction:** We are actively transitioning to a paperless environment by encouraging electronic document circulation, online applications, and digital communication with clients. This significantly reduces paper usage and the associated waste generation.
- **Sustainable Procurement:** When procuring office supplies, we prioritize eco-friendly options made from recycled materials or with minimal packaging. This not only reduces waste generation at our end but also supports companies with sustainable practices.
- **Responsible E-Waste Management:** Electronic equipment used in our operations eventually reaches its end-of-life. We partner with certified e-waste disposal companies that ensure responsible recycling and prevent hazardous materials from entering landfills.
- Employee Awareness: We promote employee awareness about waste reduction through training programs and initiatives. This could include encouraging double-sided printing, setting up designated recycling bins, and promoting reusable water bottles to minimize single-use plastics.

4.4.2 Looking Ahead

We are continuously evaluating our operations to identify new opportunities for waste reduction. By implementing these initiatives and fostering a culture of responsible resource use, KFIC Finance aims to minimize its environmental impact and contribute to a more sustainable future.

4.4.3 Alignment with ESG

This focus on waste management aligns with the broader principles of Environmental, Social, and Governance. By promoting resource efficiency and responsible waste disposal practices, KFIC Finance demonstrates its commitment to environmental sustainability.

5. Social Performance

5.1 Health and Safety Performance (GRI 403-1 to 403-10)

At KFIC Finance, we recognize the importance of our employees' well-being. We are committed to fostering a safe and healthy work environment that prioritizes the physical and mental health of our staff.

5.5.1 Our Approach to Health and Safety

Safety Protocols: We have established comprehensive safety protocols that encompass all aspects of our operations. This includes regular fire safety training, ergonomic workstation assessments, and clear procedures for handling potential hazards.

Employee Wellness Programs: We recognize the link between physical and mental well-being. We offer employee wellness programs that include access to health insurance plans, stress management workshops, and on-site fitness facilities.

5.5.2 Open Communication

We encourage open communication about health and safety concerns. Employees are empowered to report any safety hazards or raise concerns about their well-being without fear of reprisal. This fosters a proactive safety culture and allows us to address issues promptly.

5.5.3 Continuous Improvement

We are committed to continuous improvement in our health and safety performance. We regularly review our protocols, gather employee feedback, and implement new initiatives to ensure the well-being of our staff.

5.2 Employee Training and Development (GRI 404-1, 404-2, 404-3)

At KFIC Finance, we recognize that our employees are our greatest asset. Their skills, knowledge, and dedication are fundamental to our success and achieving our sustainability goals. We are committed to fostering a culture of continuous learning and development, empowering our workforce to contribute meaningfully and reach their full potential.

At KFIC Finance, we are committed to preventing money laundering and other financial crimes. As part of this commitment, we prioritize employee training on Anti-Money Laundering (AML) best practices. Total Employees: 39

Percentage of Employees Trained on AML: 97.4%

We differentiate our AML training based on employee roles and responsibilities:

Higher Level: 3 employees (Senior Management)

Medium Level: 13 employees (Supervisory Roles)

Junior Level: 23 employees (Frontline Staff)

This comprehensive training program ensures that our employees are well-equipped to identify and report suspicious activity, helping us maintain a strong defence against financial crime.

Regular training programs are implemented to enhance Board members' understanding of conflict of interest regulations and best practices for managing such situations. This ensures ongoing awareness and promotes ethical decision-making within the Board.

We recognize that individual needs and responsibilities vary. Our training programs are designed to be adaptable, catering to the specific tasks and responsibilities of each employee. This ensures that training directly addresses any identified weaknesses, aligns with evolving business strategies, and fulfils any regulatory training requirements.

We encourage employees to pursue professional development opportunities beyond our core curriculum. Based on the approved budget, employees can propose training opportunities that fall outside the established budget and seek exceptional approval. This demonstrates our commitment to supporting the long-term career aspirations of our team members.

We believe in the power of ongoing feedback and development conversations. All employees above the level of Manager receive a minimum of 100% performance feedback coverage. This ensures regular dialogue focused on strengths, opportunities for improvement, and setting goals for future growth.

By fostering a culture of continuous learning and development, KFIC Finance empowers its employees to become sustainability champions. Through comprehensive training programs, tailored learning paths, and a commitment to feedback and development, we equip our team members with the knowledge and skills necessary to drive positive change and contribute to a more sustainable future.

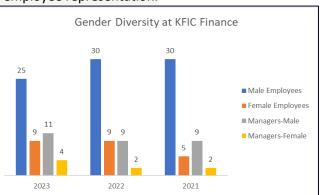

5.3 Diversity and Inclusion Initiatives (GRI 405-1, 405-2)

where every employee feels valued and has the opportunity to thrive.

At KFIC Finance, we recognize the importance of building a workforce that reflects the communities we serve. We are dedicated to fostering an inclusive environment where diversity is not just a value, but a strategic advantage. Our ongoing initiatives actively increase the representation of women and minorities in leadership roles. This commitment aligns with Sustainable Development Goals 5 (Gender Equality) and 10 (Reduced Inequalities), goals we believe are essential for a more sustainable future. A diverse and inclusive workplace fosters innovation by bringing together a wider range of perspectives. It also strengthens our talent pool by tapping into a broader network of qualified individuals. Ultimately, these efforts help us achieve our business goals and contribute to a more sustainable future. We are committed to cultivating a workplace that is respectful and empowering,

KFIC Finance is demonstrably committed to promoting gender diversity within its workforce. Data reveals a measured yet positive trend in female employee representation.

As illustrated in the graph Gender Diversity at KFIC Finance, the number of female employees has remained stable at around 9 for the past two fiscal years. This translates to a 25.7% share of the total workforce in the current FY, compared to 23.1% in the previous FY. While seemingly modest, this consistency signifies a positive shift in attracting and retaining female talent. Further analysis of recruitment and

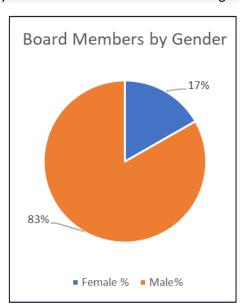

retention rates over a longer period would provide valuable insights into the effectiveness of KFIC Finance's diversity initiatives.

Conversely, the male employee headcount reveals a 28.6% decrease, with numbers dipping from 35 in the prior FY to 25 in the current FY. While this trend could indicate progress towards gender parity, it's crucial to delve deeper. Is this decrease part of a planned restructuring effort to streamline operations, or does it reflect broader industry trends. KFIC Finance believes that this transparency regarding the reasons behind this shift would provide stakeholders with a clearer picture of the workforce dynamics.

This evolving gender composition within KFIC Finance presents a compelling case for continued financing in diversity initiatives. Clients stand to gain from a more diverse workforce, which can lead to enhanced innovation (by 20%, according to McKinsey) and improved decision-making due to a wider range of perspectives being considered. Employees, particularly women, can experience a more inclusive work environment (as reported by 80% of women in a Glassdoor survey), potentially boosting morale, job satisfaction, and ultimately, productivity. Finally, customers are more likely to trust and respect a company that reflects the diversity of the community it serves. This can translate to stronger

customer loyalty and brand reputation. We have also been sponsoring anti-riot department at MOI for bowling tournament.

While KFIC Finance's strides towards gender diversity are commendable, there's always space for further improvement. A valuable next step would be establishing specific, measurable, achievable, relevant, and time-bound (SMART) goals for increasing the number of women in leadership positions. The graph Board Members by Gender showcases the current distribution of male and female employees in leadership roles across the past three fiscal years. Implementing targeted mentorship programs specifically designed for women would connect them with experienced leaders and provide valuable career guidance. Additionally, unconscious bias training for all employees

would help to ensure a fair and equitable environment for career advancement regardless of gender. By taking these proactive steps, KFIC Finance can solidify its position as a leader in fostering a diverse and inclusive workplace. This commitment to diversity ultimately benefits all stakeholders – clients through enhanced returns, employees through a more fulfilling work experience, and customers through a deeper sense of trust and connection with the company. Regularly monitoring progress towards diversity goals and making adjustments as needed will ensure KFIC Finance stays on the path to a truly representative and inclusive workforce.

Beyond diversity, we offer a comprehensive benefits package that supports the well-being of all employees, regardless of background or position. This includes life insurance, healthcare coverage, disability and invalidity coverage, parental leave, and retirement provisions. We believe that by investing in the well-being of our workforce, we create a foundation for a successful and sustainable future for both KFIC Finance and our employees.

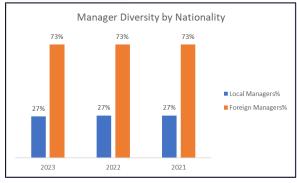

KFIC Finance recognizes that a diverse and inclusive workforce is not only ethical but also critical for long-term success. Here's a breakdown of our commitment to diversity across various dimensions:

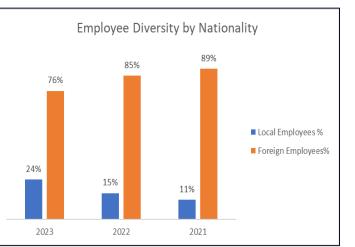

Nationality and Diversity: We strive to build a workforce that reflects the global nature of our business. This includes attracting and retaining talent from a variety of nationalities and cultural backgrounds.

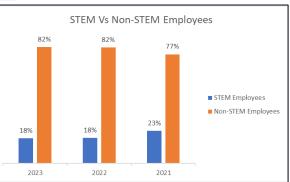

The graph Employee Diversity by Nationality highlights increasing local employees from 11% in 2021 to 24% in 2023. This underscores the current nationality mix within our workforce, highlighting areas where we can continue to make progress.

Percentage of local Managers has remained consistent at 27% across a three year period, which shows that we focus on maintaining diversity within our leadership positions.

Hiring and Turnover: A key component of diversity is fostering a dynamic talent pipeline. We focus on attracting a diverse pool of candidates during the hiring process. While the turnover percentage is at 26% in 2023, it is well in range between 23-28% across a three year period. We will continue to stabilize our turnover rate, and continue to analyse trends and implement strategies to improve retention, particularly for high-

performing employees from underrepresented groups. Fresh Graduates and STEM vs. Non-STEM: We are

committed to nurturing the next generation of talent. Our focus includes attracting both STEM and non-STEM graduates. The graph STEM Vs Non-STEM Employees denotes a decrease of 5% points from two years prior in the STEM Employee %. The percentage of STEM employees (in blue) has consistently hovered around 20% throughout the three-year period. Conversely,

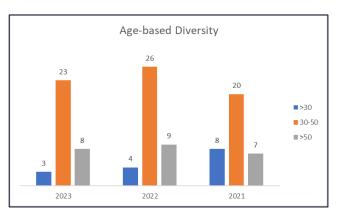

the percentage of non-STEM employees (in orange) has gradually increased over the same period, from 77% in FY 2021 to 82% in FY 2023. Possible explanations for the trends attribute to the stability in the percentage of STEM employees could be due to the continued importance of technical skills in KFIC Finance's core business activities, the increase in the percentage of non-STEM employees might reflect a growing need for skills in areas such as business development, marketing, or human resources. KFIC Finance is making a conscious effort to diversify its workforce by attracting more non-STEM talent.

Looking ahead, it will be interesting to see if these trends continue. KFIC Finance may consider setting specific goals for the future composition of its workforce to ensure it has the right mix of skills and expertise to achieve its strategic objectives. KFIC Finance will design specific initiatives in place to attract and retain non-STEM talent. KFIC Finance will also identify if there any specific areas within KFIC Finance where the demand for STEM or non-STEM skills is growing in relation to the distribution of STEM and non-STEM employees compare to KFIC Finance's competitors.

Age Group: An age-diverse workforce benefits from a variety of perspectives and experiences. The graph Age-based Diversity provides insights into the current age distribution of our employees. We will continue to develop programs that cater to the needs of employees across all age groups, fostering a culture of mutual learning and knowledge sharing.

By actively measuring and monitoring these

various dimensions of diversity, KFIC Finance remains committed to building a workforce that is not only representative but also empowered to reach its full potential. This focus on diversity is not just an HR strategy, but a cornerstone of our commitment to building a sustainable and successful future for our company.

5.4 Labor Practices and Human Rights (GRI 2-19, 402-1, 406-1, 408-1, 409-1, 410-1, 411-1)

KFIC Finance is committed to upholding the highest standards of labor rights and human rights throughout its operations. This commitment aligns with the principles outlined in the Global Reporting Initiative (GRI) standards, specifically 2-19, 402-1, 406-1, 408-1, 409-1, 410-1, and 411-1. We recognize that our responsibility extends beyond financial performance to encompass the well-being of our employees, clients, and the communities we serve.

To ensure a safe and ethical work environment, KFIC Finance has established a robust whistleblowing channel and a Code of Conduct. This provides employees with a secure platform to report suspected misconduct, fraud, or other critical concerns directly to the Board or a designated committee. This system adheres to GRI 406-1 by offering protection for whistleblowers from retaliation. Additionally, the Client Protection Guide empowers employees to identify and escalate critical concerns related to financial controls, governance practices, or operational risks that could potentially harm clients (GRI 408-1). This guide equips employees with the knowledge and resources to prioritize client well-being, aligning with GRI 409-1.

KFIC Finance fosters a culture of transparency and accountability by allowing employees to directly approach Board Members with complaints (GRI 411-1). This open-door policy ensures that all voices are heard and that concerns are addressed promptly. It demonstrates KFIC Finance's commitment to respecting the rights and dignity of its workforce (GRI 402-1) and creating a work environment built on trust and mutual respect.

By implementing these comprehensive measures, KFIC Finance is actively working to protect the rights of its employees and clients, while also promoting a more ethical and sustainable business environment.

6. Economic Performance

6.1 Financial Performance Overview (GRI 201-1, 201-2, 201-3, 201-4)

KFIC Finance is committed to achieving sustainable financial growth that benefits both our stakeholders and the communities we serve. Our focus on responsible and sustainable operations

aligns with the UN Sustainable Development Goals (SDGs) 8 (Decent Work and Economic Growth) and 9 (Industry, Innovation, and Infrastructure).

At KFIC Finance, we believe that a strong financial foundation is essential for creating a positive social and environmental impact. Our financial well-being allows us to promote sustainability initiatives, such as renewable energy solutions and innovative waste management practices. Additionally, it enables us to contribute meaningfully to the communities we serve.

Understanding how we allocate resources is crucial for transparency. Our financial performance is detailed in the Annual Report.

After accounting for all operating costs, we achieve a positive Economic Value Retained (EVR) that indicates financial sustainability, and continuous improvement to generate greater value for all stakeholders.

Our financial performance has a direct impact on our ability to achieve our Environmental, Social, and Governance (ESG) goals. A strong financial foundation allows us sponsor environmental sustainability, projects such as renewable energy projects and energy-efficient technologies. Our commitment to employee well-being, reflected in our employee benefits and wages, contributes to a positive social impact. Additionally, we prioritize responsible governance practices, including transparent financial reporting, to ensure accountability to our stakeholders.

6.2 Economic Contributions to Local Communities and Regions (GRI 203-1, 203-2)

At KFIC Finance, we recognize the interconnectedness of our business with the communities we serve. We actively contribute to local economic well-being through several key initiatives:

6.2.1 Job Creation

We are a significant employer, providing opportunities for skilled individuals within the region.

Local Procurement: We prioritize sourcing goods and services from local vendors whenever possible, supporting local businesses and fostering a vibrant economic ecosystem.

Community Investments: We are committed to giving back to the communities where we operate. This includes financial support for education, social programs, and infrastructure development, contributing to a more prosperous and sustainable future for all.

These efforts directly align with the UN Sustainable Development Goal (SDG) 11: Sustainable Cities and Communities. Additionally, our approach reflects the principles outlined in the OECD guidelines on regional development, promoting balanced economic growth across the region.

6.3 Supply Chain Management and Responsible Sourcing Practices (GRI 204-1)

At KFIC Finance, we recognize that true sustainability extends beyond our own operations. A responsible and ethical supply chain is critical to achieving our Environmental, Social, and Governance (ESG) goals. This is why we prioritize ethical sourcing, environmental responsibility, and transparency throughout our procurement processes.

Our commitment to responsible procurement practices integrates environmental and social considerations throughout our supply chain. This aligns with UN Sustainable Development Goal (SDG)

12: Responsible Consumption and Production and reflects our adherence to the principles of responsible business conduct outlined by the OECD. We take a proactive approach to ensuring the sustainability practices of our partners. We have implemented a comprehensive supplier screening process that evaluates 100% of our existing suppliers based on environmental and social criteria. This allows us to identify and collaborate with suppliers who share our values and commitment to responsible business practices.

We believe that collaboration is key to achieving a more sustainable future. We work closely with our suppliers to identify opportunities for improvement and encourage them to adopt sustainable practices within their own operations. By working together, we can create a more responsible and environmentally conscious supply chain.

Our commitment to sustainable procurement is an ongoing journey. We continuously review and refine our supplier selection process, seeking innovative solutions that minimize our environmental footprint and maximize social good. By building a robust and sustainable supply chain, KFIC Finance contributes to a positive environmental impact, strengthens social responsibility efforts, and ultimately creates long-term value for all stakeholders.

7. Governance and Ethics

7.1 Corporate Governance Structure (GRI 2-9, 2-10, 2-11, 2-12, 2-13, 2-14, 2-18)

At KFIC Finance, we believe sound corporate governance and ethical business practices are fundamental to building trust with our stakeholders and achieving long-term success. We have established a robust governance framework that defines roles, responsibilities, and reporting lines.

Our organizational structure is designed to embed strong corporate governance principles throughout the company. We clearly segregate duties between critical functions, such as Compliance, Risk Management, and Internal Audit. This ensures that independent entities oversee critical activities, mitigating potential conflicts of interest.

Our Corporate Policies provide clear guidance on governance practices. They delineate the distinct roles of the Board, Executive Management, and their various Committees. These policies clearly outline the responsibilities of the Board Chairman, Board Members, Board Committees, Chief Executive Officer (CEO), Deputy CEO, Chief Financial Officer (CFO), Board Secretary, Head of Risk Management, and Internal Auditor. Additionally, the independence of key executives is ensured through well-defined reporting lines. Our governance structure revolves around the Board of Directors, Board Committees, and Management Committees. The Board is responsible for governing the company, including setting and overseeing strategic objectives, risk management policies, and the effectiveness of our governance systems.

| | Name of Board member | Position | Gender | Tenure (Report Period) | Attendance rate | Specialization/Skills relevant to Organization | Whether belonging to under-represented group |
|-----------|----------------------------------|-----------------------|--------|-------------------------------------|--------------------|---|---|
| | Mr. Tareq Meshari Al- Bahar | Chairman | Male | From 01-01-2023 until 31-12-2023 | 100% | Management \ Financial | KFIC Finance |
| Board of | Mr. Nasser Najef Mohamed Shah | Vice Chairman | Male | From 31-05-2023 until 31-12-2023 | 100% | Compliance \ Legal \ Management | KFIC Finance |
| Directors | Mr. Mohammad Othman Al-Aiban | Vice Chairman &CEO | Male | From 01-01-2023 until 09-04-2023 | 100% | Management \ Financial | Self |
| | Mr. Shabnan Fahad Al-Mutairi | Board Member | Male | From 01-01-2023 until 31-12-2023 | 90% | Management \ Financial | Self |

| | Mr. Shabnan Fahad Al- Mutairi | Male | From 01-01-2023 until 31-12-2023 | 100% | Management \ Financial | Self |

7.2 Ethical Business Practices (GRI 205-1, 205-2, 205-3)

At KFIC Finance, we are committed to conducting business ethically and with the utmost respect for our stakeholders, particularly our shareholders. We believe that strong corporate governance and transparency are essential for building trust and ensuring long-term value creation.

KFIC Finance is firmly dedicated to protecting the rights of all our shareholders. The Board of Directors has established comprehensive policies that uphold these rights, as outlined in the Companies Law and the regulations of the Capital Markets Authority. These rights include:

- Fair and Equal Treatment: All shareholders are treated fairly and have equal rights, regardless of their holdings.
- Accurate Recordkeeping: The Company maintains accurate records of all shareholder ownership.
- Shareholder Transactions: Shareholders have the right to freely buy, sell, or transfer their shares.
- Profit Sharing: Shareholders are entitled to receive their fair share of dividends and bonus shares when declared.
- Company Assets: In the event of liquidation, shareholders have the right to receive a portion of the Company's assets based on their shareholding.

- Transparency and Information: Shareholders are entitled to receive regular and timely information about the Company's activities, operational performance, and financing strategies.
- Participation and Voting: Shareholders have the right to attend General Assembly meetings, vote on key decisions, and participate in discussions.
- Board Election: Shareholders hold the right to elect members of the Board of Directors, who are ultimately responsible for overseeing the Company's performance.
- Monitoring and Oversight: Shareholders have the right to monitor the Company's performance and hold the Board and Executive Management accountable for their actions.
- Access to Information: Shareholders can access the Company's Articles and Memorandum of Association, General Assembly minutes, and shareholder and bondholder registers at the Company's registered address.
- Pre-emption Rights: Shareholders have the right to purchase new shares or bonds issued by the Company before they are offered to the general public, subject to specific provisions.

In addition to these fundamental rights, KFIC Finance recognizes the importance of shareholder engagement. We actively encourage our shareholders to participate in General Assembly meetings, ask questions, and express their views. We believe that open communication and collaboration are essential for building a strong and sustainable company.

By upholding shareholder rights and fostering open communication, KFIC Finance demonstrates its commitment to ethical business practices. This commitment extends to all stakeholders, including employees, clients, and the communities we serve. We are confident that by operating with integrity and transparency, we can build trust, create value, and achieve long-term success.

7.3 Risk Management, Compliance and Anti-Money Laundering (GRI 307-1, 419-1)

At KFIC Finance, we understand that operating in today's dynamic financial environment necessitates a robust and forward-looking approach to risk management. Our comprehensive framework prioritizes proactive risk identification, strategic mitigation strategies, and continuous monitoring to safeguard assets, protect our reputation, and support the achievement of our strategic objectives.

7.3.1 Empowering Informed Decisions Through a Well-Defined Structure

The cornerstone of our risk management framework is a clearly defined governance structure. The Board of Directors sets the overall risk management strategy and oversees its implementation. A dedicated Risk Management Committee provides oversight for risk management activities, receiving reports from the department and making recommendations to the Board. The Risk Management Department serves as the engine of the framework, actively identifying, assessing, and reporting on risks. They also develop and implement mitigation strategies and monitor the effectiveness of internal controls.

Complementing this structure, the Compliance Department ensures adherence to all relevant laws, regulations, and internal policies, including Anti-Money Laundering (AML) compliance. An

independent Complaints Unit provides a vital channel for clients to report concerns and seek resolution, further strengthening the framework.

7.3.2 A Holistic Approach to Risk Identification and Assessment

The Risk Management Department employs a comprehensive approach to risk identification and assessment. This process encompasses a wide range of risk categories, including:

Financial Risks: Credit risk, market risk, liquidity risk, and operational risk – directly impacting KFIC Finance's financial performance and stability.

Strategic Risks: Business model risk, reputational risk, and technological risk – affecting the company's long-term viability and competitive advantage.

Regulatory Risks: Ensuring adherence to relevant legal and regulatory requirements.

Environmental, Social, and Governance (ESG) Risks: Environmental impact, social responsibility concerns, and governance vulnerabilities – increasingly impacting stakeholder perception, operational efficiency, and long-term sustainability.

To effectively measure and monitor these risks, the department utilizes defined key risk indicators (KRIs). These quantifiable metrics allow for data-driven assessments of the severity and likelihood of each risk, enabling informed decision-making regarding risk mitigation strategies.

Tailored Mitigation Strategies for Effective Risk Management

The Risk Management Department employs a multi-pronged approach to address identified risks. This may include risk avoidance, risk reduction, risk transfer, or risk acceptance within established tolerance limits. In conjunction with these strategies, the department establishes and implements robust internal controls to further manage and mitigate identified risks, safeguarding KFIC Finance's operations.

7.3.3 Continuous Improvement Through Monitoring and Reporting

To ensure continuous improvement and adaptation to the evolving risk landscape, the Risk Management Department conducts periodic risk assessments. This proactive approach allows for the identification and timely address of new threats. Regular monitoring of Key Risk Indicators (KRIs) provides valuable data on the current status and severity of identified risks. These insights, along with reports on risk management activities, are presented to the Risk Management Committee and the Board. This transparency fosters informed decision-making, enabling adjustments to mitigation strategies and controls as needed. Furthermore, the reports offer valuable information on emerging risks and their potential impact, allowing KFIC Finance to proactively address future challenges.

Upholding the Highest Ethical Standards Through Compliance

KFIC Finance is firmly committed to upholding the highest ethical standards and operating in strict compliance with all applicable laws, regulations, and industry standards. The Compliance Department plays a crucial role in ensuring adherence to these requirements through activities such as:

Maintaining Compliance: Actively monitoring and reviewing relevant laws, regulations, and industry standards to ensure KFIC Finance remains compliant, including meticulous adherence to AML/CFT regulations.

Collaboration and Communication: Fostering open communication and collaboration with key stakeholders, including regulatory bodies, internal auditors, and rating agencies.

7.3.4 A Commitment to Continuous Improvement

Recognizing the ever-evolving risk landscape, KFIC Finance is committed to a process of continuous improvement in its risk management framework. This commitment is evidenced by the following initiatives:

Regular Review and Revision of Risk Assessments: Regularly conducted risk assessments identify changes in the business environment and external factors that may impact the risk profile. These assessments inform adjustments to the risk management framework, ensuring it remains relevant and effective.

Implementation of New Risk Monitoring Technologies: KFIC Finance is committed to leveraging new technologies like advanced data analytics tools and scenario modelling software to enhance its risk monitoring capabilities and facilitate more proactive risk management.

Periodic Reviews of Framework Effectiveness: The risk management framework will undergo periodic reviews to assess its overall effectiveness. These reviews will evaluate the adequacy of risk identification processes, the efficacy of mitigation strategies, and the efficiency of control measures. Outcomes from these reviews will be used to identify opportunities for further refinement and improvement.

By proactively managing risks and fostering a culture of compliance, KFIC Finance positions itself for long-term success.

| | prevented and | |
| | mitigated | |
| 2-12 Role of the highest | 2-12a Please describe | 1. Defining the ESG |
| governance body in overseeing the | the role of the | Vision and Direction: Bol |
| management of impacts | highest governance | sets the overall strategic |
| | body and of senior | direction for ESG |
| | executives in | integration within the |
| | executives in | |
| | developing, | organization, outlining a |
| | | |

| | organization's purpose, value or mission statements, strategies, policies, and goals related to sustainable development | sustainability considerations. 2. Shaping Sustainability Policies and Goals: BoD is responsible for approving sustainability policies and goals that align with the organization's broader mission and values. These policies and goals provide a framework for integrating ESG factors into business decisions. 3. Guiding Senior Management on ESG: BoD provides ongoing oversight and guidance to senior executives on ESG matters. This ensures that ESG considerations are effectively implemented throughout the |
|--|---|---|
| | | organization. |
| | 2-12b Please describe the role of the highest governance body in overseeing the organization's due diligence and other processes to identify and manage the organization's impacts on the economy, environment, and people, including: i. whether and how the highest governance body engages with stakeholders to support these processes; ii. how the highest governance body considers the outcomes of these processes | Integrates Environmental, Social, and Governance (ESG) Considerations into Financing Services: |

| | 2-12c Please describe the role of the highest governance body in reviewing the effectiveness of the organization's processes as described in 2-12-b, and report the frequency of this review. | KFIC Finance conducts periodic reviews of its environmental, social, and governance (ESG) due diligence and impact management processes. Insights necessitate more frequent reviews. |
|---|---|--|
| 2-13 Delegation of responsibility for managing impacts | 2-13a Please describe how the highest governance body delegates responsibility for managing the organization's impacts on the economy, environment, and people, including: i. whether it has appointed any senior executives with responsibility for the management of impacts ii. whether it has delegated responsibility for the management of impacts to other employees | i. Senior Executive Leadership: The Board appoints a dedicated leader, potentially an existing executive with relevant experience, to spearhead the development and execution of the organization's ESG strategy. ii. Departmental Integration: To ensure seamless integration with existing business functions, the Board delegates specific aspects of ESG impact management to relevant departments, such as compliance, risk management, and human resources. These departments will collaborate with the designated ESG leader to implement the strategy effectively |
| | 2-13b Please describe the process and frequency for senior executives or other employees to report back to the highest governance body on the management of the organization's impacts on the economy, | Regular ESG Reporting: KFIC Finance, as a leading regional financial services company, is committed to transparent communication on ESG matters. This commitment is reflected in our regular ESG reports, issued quarterly or biannually. These |

| | | environment, and people. | reports provide a detailed overview of progress made towards our ESG goals, key performance indicators (KPIs) that track our performance, and any significant ESG-related events that have occurred during the reporting period. |
|--------|---|---|--|
| | Role of the highest nance body in sustainability ting | 2-14a Please report whether the highest governance body is responsible for reviewing and approving the reported information, including the organization's material topics, and if so, describe the process for reviewing and approving the information | Ultimate Responsibility: Board of Directors |
| | | 2-14b If the highest governance body is not responsible for reviewing and approving the reported information, including the organization's material topics, explain the reason for this. | Highest governance body is responsible for ESG |
| 2-15 (| Conflicts of interest | 2-15a Please describe the processes for the highest governance body to ensure that conflicts of interest are prevented and mitigated | Board members likely have a duty to disclose any potential conflicts of interest arising from their personal or professional lives that could influence their decisions. |

| | 2-15b Please report | i. Disclosing Board |
|--------------------------------|------------------------|-----------------------------|
